in its field. It has not only condensed large-scale high net worth customer groups over years, but moreover it makes an impression that the listed rate of its invested enterprises in the A-share market exceeds 70%, which is benefited from its huge advantages in the fields of investment bank, colleges and universities, private placement and business associations. The investment business of Kaiying covers leading enterprises in such subdivided industries as biopharmaceuticals, artificial intelligence, supply chain finance and new materials. The strategic cooperation between the two sides has not only further expanded service space of Kaiying investment, such as its investment field and investment value-added space for its customer group, but also introduced many potential partners for the future financial technology in its main business sectors such as boutique finance and blockchain technology, contributing to a broader development prospect. Mr. Pan Weicheng, Chief Strategic Officer of the Future FinTech Group Inc., regards the cooperation with the Kaiying investment as a "seamless" win-win cooperation. Mr. Pan believes that through this comprehensive strategic cooperation, the weaknesses of both sides can be complemented by the other side's resources, system and technology; the advantages of both sides can also be further enhanced with assistance of the other side. Ms. Li Yan, chairwoman of Kaiying investment, and Mr. Pan Weicheng attended the signing ceremony and signed the contract.
